

Dixie High School Community Council

March 20, 2012

Meeting Minutes

Members Present: Larry Bergeson, Cody Dupass, Glenn Whicker, Janece Gardner, Shauna Challis, Kathryn Anderson, Toni Schroath, Jim Bown.

Items Discussed:

Larry Bergeson presented to the Council the proposed plan, including specific goals, for Trust Land Funds for school year 2012-2013. The first goal was to increase student learning in CRT subjects of Math, Language Arts, and Science. The Action Plan for this goal included continuing with the Rebound program. The committee voiced strong support for the continuation of this program and also agreed with paying for a portion of a math teacher's salary to decrease class sizes.

A discussion of our second goal to enhance student preparation for post-secondary pursuits was also favorably supported by the Council. All felt it is important to continue with the Sophomore Orientation (Student Ambassador) program. The committee also wants to continue support of the PLAN test and ACT test prep classes. They felt that any additional help to students in their preparation for the ACT should be continued. They also supported the proposal to assist in the payment for credit recovery classes for economically disadvantaged students who fail Language Arts 10 classes.

The third goal of the plan, to continue building a Professional Learning Community at Dixie High, was also strongly supported by the Council.

Council approval of the plan was obtained by consensus and all members present signed the Committee Signature Form.

In conclusion, council members briefly discussed the current reclassification process for athletics and the possibility of 6 classifications for football. The committee generally supported remaining with the current classification in all sports.

The next meeting of the Dixie High Community Council will be held on April 10, 2012.
