

Dixie High School Community Council

Minutes

April 7, 2015

Members Present: Jennifer Hall, Cary MacArthur, Esther Pugmire, Paul Ogilvie, James Bown, Steve Quinn, Sharla Campbell

Items Discussed:

Mrs. Campbell reviewed the schedule for our accreditation visit, which will occur on Wednesday and Thursday of this week.

The Council reviewed the proposed plan for trust land funds next year. We anticipate receiving approximately \$66,000 from trust lands for this year's budget, and wish to continue to provide math tutoring, as well as fund Rebound. We will budget for 2 periods of instruction in our credit recovery classes, and will hire an Outreach Aide to communicate with at-risk students and families. We hope to purchase an additional Chromecart, credit recovery from Utah Online, and Brain Pops as a resource for our science classrooms. Finally, some money will be earmarked to fund professional development opportunities to develop capacity for improving classroom teaching in our school. A complete list of the proposed budget items is included with these minutes.

Members discussed the items in the proposed budget, and approved the plan unanimously.

The Council was notified that the approval process for the plan will be different this year, and they will be asked to indicate their approval via email rather than signing a signature form. The Council indicated that this would be the final meeting of the Council for the year.
