

## DIXIE HIGH COMMUNITY COUNCIL

### Meeting Minutes

02-19-20

Members Present: Cortney Snow, Chantel Markel, Lisa Trawick, Christy Kauer, Derek Schweitzer, Angela Atkinson, Jason Brooks, Sharla Campbell

#### Items Discussed:

Committee members reviewed a tentative plan for the State Trust Land and TSSA budgets for next year. The major cost of both budgets is planned for class size reduction in the areas of Language Arts and Science. In addition, the school is proposed to continue funding Rebound, Rebound facilitator/mentor, ACT Prep, and in-school credit recovery classes. Discussion included the following:

- Adding instruction and practice preparing college entrance documents, as well as resumes and job application letters to ACT Prep.

- Adding a Student Success curriculum to ACT Prep course.

- Schmoop was seen by those members whose children had participated in the class to be a more effective curriculum for the class than designing a curriculum around practice tests.

- Test-taking strategies should be included, along with content review.

- Possibly compare students' predicted ACT score as reported from the Aspire test with the ACT score earned by students in the Prep class.

It was noted that the FTE's awarded to the school next year and our increased number of students enrolling will result in fewer math labs being offered. Council suggested considering adding peer tutors to the math labs so individual help could be enhanced.

The next meeting of the Dixie High Community Council will be held on Tuesday, March 31 at 4 p.m. It is expected that the finalized version of the STL plan will be available at that time and approval from the Community Council will be sought.
